**The Matador** Aug 30 2022 The Matador is an interplay of memories from Jamaican entrepreneur Lloyd Daley and historical context provided by author Rich Lowe. Mr. Daley built some of the most powerful amplifiers on the island of Jamaica, he worked at The Times Store as a lithographer, he had an electronics repair business, he formed the Matador Sound System, and he was a top selling music producer. Mr. Daley had to have a rough exterior to survive at the center of the sound system eruption in the mid 1950's in Jamaica, recording as a producer in the golden eras of Jamaican Boogie-Shuffle, Ska, Rock Steady and Reggae music. As a producer, Daley had consistency, quality, and was selective. Lloyd Daley recorded artists of the era who have come to be recognized over time: Members of The Skatalites, Dennis Brown, The Gladiators, The Wailing Souls, The Heptones, Little Roy, Freddie McKay, Alton Ellis, The Ethiopians, The Hippy Boys, The Abyssinians, Count Ossie, The Viceroyes, and many more. Fellow sound system owner Prince Jackie commented, "The Matador is a man that never stand for no foolishness." As a sound system owner, Lloyd Daley battled with giants of the day like King Edwards, Coxson Dodd, Duke Reid, and Bells the President.

**Sounds Like London** May 27 2022 For as long as people have been migrating to London, so has their music. An essential link to home, music also has the power to shape communities in surprising ways. Black music has been part of London's landscape since the First World War, when the Southern Syncopated Orchestra brought jazz to the capital. Following the wave of Commonwealth immigration, its sounds and styles took up residence to become the foundation of the city's youth culture. Sounds Like London tells the story of the music and the larger-than-life characters making it, journeying from Soho jazz clubs to Brixton blues parties to King's Cross warehouse raves to the streets of Notting Hill - and onto sound systems everywhere. As well as a journey through the musical history of London, Sounds Like London is about the shaping of a city, and in turn the whole nation, through music. Contributors include Eddy Grant, Osibisa, Russell Henderson, Dizze Rascal and Trevor Nelson, with an introduction by Soul2Soul's Jazzie B.

**Low End Theory** Dec 10 2020 Low End Theory probes the much-mythologized field of bass and low-frequency sound. It begins in music but quickly moves far beyond, following vibratory phenomena across time, disciplines and disparate cultural spheres (including hauntings, laboratories, organ workshops, burial mounds, sound art, studios, dancefloors, infrasonic anomalies, and a global mystery called The Hum). Low End Theory asks what it is about bass that has fascinated us for so long and made it such a busy site of bio-technological experimentation, driving developments in science, technology, the arts, and religious culture. The guiding question is not so much what we make of bass, but what it makes of us: how does it undulate and unsettle; how does it incite; how does it draw bodily thought into new equations with itself and its surroundings? Low End Theory is the first book to survey this sonorous terrain and devise a conceptual language proper to it. With its focus on

sound's structuring agency and the multi-sensory aspects of sonic experience, it stands to make a transformative contribution to the study of music and sound, while pushing scholarship on affect, materiality, and the senses into fertile new territory. Through energetic and creative prose, *Low End Theory* works to put thought in touch with the vibratory encounter as no scholarly book has done before. *Rude Citizenship* Oct 27 2019 In this deep dive into the Jamaican music world filled with the voices of creators, producers, and consumers, Larisa Kingston Mann—DJ, media law expert, and ethnographer—identifies how a culture of collaboration lies at the heart of Jamaican creative practices and legal personhood. In street dances, recording sessions, and global genres such as the riddim, notions of originality include reliance on shared knowledge and authorship as an interactive practice. In this context, musicians, music producers, and audiences are often resistant to conventional copyright practices. And this resistance, Mann shows, goes beyond cultural concerns. Because many working-class and poor people are cut off from the full benefits of citizenship on the basis of race, class, and geography, Jamaican music spaces are an important site of social commentary and political action in the face of the state's limited reach and neglect of social services and infrastructure. Music makers organize performance and commerce in ways that defy, though not without danger, state ordinances and intellectual property law and provide poor Jamaicans avenues for self-expression and self-definition that are closed off to them in the wider society. In a world shaped by coloniality, how creators relate to copyright reveals how people will play outside, within, and through the limits of their marginalization.

**Sonic Bodies** Mar 25 2022 The reggae sound system has exerted a major influence on music and popular culture. Out on the streets of inner city Kingston, Jamaica, every night, sound systems stage dancehall sessions for the crowd to share the immediate, intensive and immersive visceral pleasures of sonic dominance. *Sonic Bodies* concentrates on the skilled performance of the crewmembers responsible for this signature sound of Jamaican music: the audio engineers designing, building and fine-tuning the hugely powerful "sets" of equipment; the selectors choosing the music tracks to play; and MCs(DJs) on the mic hyping up the crowd. Julian Henriques proposes that these dancehall "vibes" are taken literally as the periodic motion of vibrations. He offers an analysis of how a sound system operates - at auditory, corporeal and sociocultural frequencies. *Sonic Bodies* formulates a fascinating critique of visual dominance and the dualities inherent in ideas of image, text or discourse. This innovative book questions the assumptions that reason resides only in a disembodied mind, that communication is an exchange of information, and that meaning is only ever representation.

**Remixology** Apr 13 2021 Dub is the avant-garde verso of reggae, created by manipulating and reshaping recordings using studio strategies and techniques. While dub was one of the first forms of popular music to turn the idea of song inside out, it is far from being fully explored. Tracing the evolution of dub, *Remixology* travels from Kingston, Jamaica, across the globe, following dub's influence on the development of the MC, the birth of sound system culture, and the postwar Jamaican diaspora. Starting in 1970s Kingston, Paul Sullivan examines the origins of dub as a genre, approach, and attitude. He stops off in London, Berlin, Toronto, Bristol, and New York, exploring those places where dub had the most impact and investigates its effect on postpunk, dub-techno, jungle, and the dubstep. Along the way, Sullivan speaks with a host of international musicians, DJs, and luminaries of the dub world, from DJ Spooky, Adrian Sherwood, Channel, and Roy to Shut Up and Dance and Roots Manuva. Wide-ranging and lucid, *Remixology* sheds new light on the dub-born notions of remix and reinterpretation that set the stage for the music of the twenty-first century.

*Living Through Pop* Jul 17 2021 In 1956 many people thought rock 'n' roll was a passing fad, yet over forty years later, more than ever, Popular Music is a part of contemporary culture, reinventing itself for successive generations. Pop embraces its own history, with musicians from every genre routinely sampling the sounds of the past. *Living Through Pop* explores popular music's history, and the ways in which it has been produced by musicians, broadcasters, critics and fans. In discussing this complex relationship between the past and the present, the contributors investigate significant moments in music's history, from the Rolling Stones and the Velvet Underground to the Sex Pistols and the Verve, from drum 'n' bass to European extreme techno.

*Exploring Ibero-American Youth Cultures in the 21st Century* Sep 18 2021 The authors collected here address youth street cultures in different cities from the Ibero-American world, bringing together contributions on Brazil, Argentina, Mexico, Chile, Portugal, Spain, and beyond. This overseas approach bridging the European and American contexts is justified by the range of (complex) social, cultural and economic relationships that have shaped this transnational geographical space since the beginning of the colonial period. The chapters collected here focus on three key concepts—creativity, resistance and transgression—that form a threefold dispositive to locally and globally confront, contest and even fight against the hegemonic, punitive and oppressive powers (re)produced by (white, male) dominant classes of the city. The book ensures a high diversity of geographical and social/cultural research contexts by focusing on one, two or multiple spatial contexts (the public space, the street, the city) and, at the same time, by emphasizing the different economic, social, cultural, symbolic specificities of youth cultures (including gender, sexuality and race) in their particular urban contexts.

**Jesus Dub** Feb 21 2022 Robert Beckford explores the dialogue between two central institutions in African Caribbean life: the church and the dancehall. He highlights how Dub – one of the central features of dancehall culture – can be mobilized as a framework for re-evaluating theology, taking apart doctrine and reconstructing it under the influence of a guiding theme. Engaging with the social and cultural heritage that informs Christian African Caribbean culture, including the influence of slavery, Revival Christianity and working class Jamaican life, Black theology and music ranging from post-war Sound System to American Hip Hop, *Jesus Dub* is a detailed exploration of how throughout history, music and faith have been transformed in response to racialised oppression. Finally, Beckford demonstrates that dub style appears in the teachings of Jesus, and that Dub is a tool which can provide new ways of envisaging and practising spiritual gifts and financial giving, proposing a more inclusive theology for everyone.

The Confounding Island Jan 29 2020 Orlando Patterson returns to Jamaica, his birthplace, to reckon with its history and culture. Locals claim to be some of the world's happiest people, and their successes in music and athletics are legendary. Yet the country remains violent and poor. In Jamaica the dilemmas of globalization and postcolonial politics are thrown into stark relief.

Race, Class, and Political Symbols Nov 20 2021 Dr. Waters is one of a new breed of analysts for whom the interpenetration of politics, culture, and national development is key to a larger integration of social research. *Race, Class, and Political Symbols* is a remarkably cogent examination of the uses of Rastafarian symbols and reggae music in Jamaican electoral campaigns. The author describes and analyzes the way Jamaican politicians effectively employ improbable strategies for electoral success. She includes interviews with reggae musicians, Rastafarian leaders, government and party officials, and campaign managers. Jamaican democracy and politics are fused to its culture; hence campaign advertisements, reggae songs, party pamphlets, and other documents are part of the larger picture of Caribbean life and letters. This volume centers and comes to rest on the adoption of Rastafarian symbols in the context of Jamaica's democratic institutions, which are characterized by vigorous campaigning, electoral fraud, and gang violence. In recent national elections, such violence claimed the lives of hundreds of people. Significant issues are dealt with in this cultural setting: race differentials among Whites, Browns, and Blacks; the rise of anti-Cubanism; the Rastafarians' response to the use of their symbols; and the current status of Rastafarian ideological legitimacy.

*Legions of Boom* Mar 13 2021 Armed with speakers, turntables, light systems, and records, Filipino American mobile DJ crews, such as Ultimate Creations, Spintronix, and Images, Inc., rocked dance floors throughout the San Francisco Bay Area from the late 1970s through the mid-1990s. In *Legions of Boom* noted music and pop culture writer and scholar Oliver Wang chronicles this remarkable scene that eventually became the cradle for turntablism. These crews, which were instrumental in helping to create and unify the Bay Area's Filipino American community, gave young men opportunities to assert their masculinity and gain social status. While crews regularly spun records for school dances, weddings, birthdays, or garage parties, the scene's centerpieces were showcases—or multi-crew performances—which drew crowds of hundreds, or even thousands. By the mid-1990s the scene was in decline, as single DJs became popular, recruitment to crews fell off, and aspiring scratch DJs branched off into their own scene. As the training ground for a generation of DJs, including DJ Q-Bert, Shortkut, and Mix Master Mike, the mobile scene left an indelible mark on its community that eventually grew to have a global impact.
