7 Deadly Sins of Women in Leadership May 15 2021 Unleash your leadership by identifying and overcoming the limitations you place on yourself in the workplace. Women are called by God to flourish in areas of leadership. And for the first time in modern history, women are making their way into strategic positions of influence and leadership within the ministry, public, corporate, charity and voluntary sectors. Certainly, there are still external disadvantages that women leaders face in the professional world, and there's still a lot of work to do. But there are internal hinderances, too, and those you can take charge of today. In *7 Deadly Sins of Women in Leadership*, Kate Coleman considers what lies at the root of the many challenges facing today's leaders—women and men—and proposes ways of dealing with them. Effective leadership starts with you. Based on her 35 years of leadership experience, Kate explains how you can: Overcome limiting self-perceptions Establish boundaries Develop a tailor-made personal vision Cultivate a healthy work/life rhythm Stop being a people-pleaser Learn to confront not collude Be intentional with your inner circle Written for every leader from any sector or gender (men could learn a few things from this book too), this proven and practical guidebook will enable you to identify and overcome self-defeating patterns of behavior, in ways that will radically transform your leadership.

Women and Leadership Apr 25 2022 A powerful call to action for achieving equality in leadership. Women make up fewer than ten percent of national leaders worldwide, and behind this eye-opening statistic lies a pattern of unequal access to power. Through conversations with some of the world's most powerful and interesting women—including Jacinda Ardern, Hillary Rodham Clinton, Christine Lagarde, Michelle Bachelet, and Theresa May—*Women and Leadership* explores gender bias and asks why there aren't more women in leadership roles. Speaking honestly and freely, these women talk about having their ideas stolen by male colleagues, what it's like to be called fat or a slut in the media, and what things they wish they had done differently. The stories they tell reveal vividly how gender and sexism affect perceptions of women as leaders. Using current research as a starting point, Julia Gillard and Ngozi Okonjo-Iweala—both political leaders in their own countries—analyze the lived experiences of these women leaders. The result is a rare insight into life as a leader and a powerful call to arms for women everywhere.

Run to Win Oct 08 2020 "I have long believed that women who dream big, work hard, and get back up after they get knocked down can do anything; Stephanie Schriock is one of those women. I'm so glad her thoughtful guidance is now available for women everywhere."—Hillary Rodham Clinton "Stephanie Schriock leads the leaders."—Michelle Lujan Grisham, governor of New Mexico "Run to Win is an antidote to anxiety and a welcome call to action. I encourage every woman (and a few good men) to dive into Run to Win and take your turn at saving the world."—Stacey Abrams From the president of EMILY's List, a playbook for women changing the world in politics, business, or any arena, with a foreword from Vice President Elect Kamala Harris. For the past thirty-five years EMILY's List has helped the campaigns of thousands of pro-choice Democratic women, but the hardest part has always been convincing more women to run. Then Donald Trump was elected, and something shifted into place. American women who were furious and frustrated were looking for a way to channel their outrage into action, united in proclaiming, "If that guy can get elected, why not me?" The day after the 2016 election, dozens of women searched out an old sign-up link buried on the EMILY's List website. By Thanksgiving, those dozens had grown to a few thousand. And that was only the beginning. By the end of 2018, there were nearly fifty thousand women signed up to run for office, with scores more signing up each day. Run to Win is for all women who are looking to lead. Organized around the steps that EMILY's List coaches its candidates through (from deciding to run through celebrating victory), this book is full of essential lessons for any woman trying to succeed in a male-dominated field. Their arena is politics but their message is universal. And Stephanie Schriock is the most qualified person to share these lessons. Not only is she a powerful figure in politics but she's also a woman who commands respect for her astounding success as president of EMILY's List and a longtime Democratic operative. Her message is uplifting and actionable, her voice is that of your best girlfriend walking you through what you need to consider as you make your plan, and her experience coaching the biggest female candidates in recent elections (including all of the female 2020 Democratic presidential candidates) makes her the de facto authority on the strategies women can employ to run, fight, and win, whatever their field or goal.

How Remarkable Women Lead Sep 30 2022 The Remarkable discoveries about what drives and sustains successful women leaders. Based on five years of proprietary research, How Remarkable Women Lead speaks to you as no other book has, with its hopeful outlook and unique ideas about success. It's the new "right stuff" of leadership, raising provocative issues such as whether feminine leadership traits (for women and men) are better suited for our fast-changing, hyper-competitive, and increasingly complex world. The authors, McKinsey & Company consultants Joanna Barsh and Susie Cranston, establish the links between joy, happiness, and distinctive performance with the groundbreaking model of Centered Leadership. The book's personal stories and related insights show you the magic that happens when you put the five elements of Centered Leadership—meaning, framing, connecting, engaging, and energizing—to work. They include: • How Alondra de la Parra built on her strengths and passions to infuse her life with meaning and make her way in the male-dominated world of orchestra conducting • How Andrea Jung, the CEO of Avon, avoided a downward spiral when the company turned down by "firing herself" on Friday and re-emerging on Monday as the "new" turnaround CEO • How Ruth Porat's sponsors at Morgan Stanley not only helped her grow but were also her ballast for coping with difficult personal and professional times • How Eileen Naughton recovered after losing her dream job, landing on her feet at Google and open to a new leadership opportunity • How Julie Coates of Woolworth's Australia makes energy key to her professional success, with reserves for her "second shift" as wife and mother How Remarkable Women Lead is both profoundly moving and actionable. Woman or man, you'll find yourself in its pages and emerge with a practical plan for breaking through at both work and in life. Lead Mar 13 2021 During Ellen Snee's eighteen years as a Catholic nun, she gained a number of essential—and, happily, transferable—skills: how to discern a call or deep desire, how to work collaboratively with other women, and how to be a savvy operator within male hierarchies. In Lead, she draws on that knowledge—as well as lessons learned and insights gained from her Harvard dissertation on psychological dimensions of authority for women, two decades of work with executive women as CEO of Fine Line Consulting, and five years as VP of Organizational & Leadership Development at VMware, a global technology leader—to address the exercise of authority by women. Lead guides readers through specific challenges of leadership Snee has identified as most vital to success through her own corporate experience and consulting work: developing resilience, presenting with authority, gaining financial literacy, managing in every direction, and more. Throughout, Snee urges women to find and speak with their unique voice and claim their personal power. Full of illuminating personal and client anecdotes and surprising research insights, Lead is an accessible, instructive, and empowering road map to finding external success—by drawing on the strengths you've carried inside you all along.

Dare to Lead Apr 01 2020 #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read Daring Greatly and Rising Strong or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

Women and Global Health Leadership Dec 30 2019 Women represent the majority of people working to improve health outcomes in communities, non-governmental and multilateral organizations, both as paid and unpaid health and social care workers. So why is it that when it comes to leadership positions, we have a governance system that privileges men and what can we do to redress the imbalance? This ground-breaking collection explores the leadership roles that women hold in global health, teasing out the routes women have taken to leadership, the challenges they have faced, and what has facilitated their journey. It brings to the fore the stories of women on the frontlines of this struggle from around the world, highlighting and complementing these stories with theoretical and analytical explorations of the structures and systems that help or hinder the process. Among the topics explored: Gendered Institutions in Global Health Gender, Peace, and Health: Promoting Human Security with Women's Leadership Academic Journal Publishing: A Pathway to Global Health Leadership Women in Health Systems Leadership: Demystifying the Labyrinth Women's Leadership in Global Health: Evolution Will Not Bring Equality The book is a rallying call to arms to redress gender inequality and celebrate the many ways in which women are taking the lead in supporting the health of their communities internationally. *Women and Global Health Leadership* is a must-read for those working in or studying global health. It is also a primer that aims to support other women in their efforts and struggles to succeed in a highly unfair and unequal world. The book will engage ministers of health, policy-makers, practitioners, academicians, students, researchers, healthcare workers, health service managers, and members of multilateral organizations. By highlighting key barriers and facilitators to women in global health leadership, organizations can use this book to help inform the development of institutional policies and procedures to support women in leadership positions across academic, health workforce, and global health governance systems. It also can be used within postgraduate courses focusing on the global health workforce, leadership and management, and women's studies.

Why Do So Many Incompetent Men Become Leaders? Jun 03 2020 Look around your office. Turn on the TV. Incompetent leadership is everywhere, and there's no denying that most of these leaders are men. In this timely and provocative book, Tomas Chamorro-Premuzic asks two powerful questions: Why is it so easy for incompetent men to become leaders? And why is it so hard for competent people--especially competent women--to advance? Marshaling decades of rigorous research, Chamorro-Premuzic points out that although men make up a majority of leaders, they underperform when compared with female leaders. In fact, most organizations equate leadership potential with a handful of destructive personality traits, like overconfidence and narcissism. In other words, these traits may help someone get selected for a leadership role, but they backfire once the person has the job. When competent women--and men who don't fit the stereotype--are unfairly overlooked, we all suffer the consequences. The result is a deeply flawed system that rewards arrogance rather than humility, and loudness rather than wisdom. There is a better way. With clarity and verve, Chamorro-Premuzic shows us what it really takes to lead and how new systems and processes can help us put the right people in charge.

Centered Leadership Sep 06 2020 What enables some talented people to rise to the top and live their full ambitions at work and in life, while others stop short? In 2007, Joanna Barsh led a team at McKinsey & Company to answer that very question. In the process, they uncovered what distinguishes leaders who are successful from those who achieve true greatness, developing an approach called Centered Leadership. They drew on research from across the academic fields of leadership, organization behavior, neuroscience, evolutionary psychology and positive psychology. In addition, Barsh interviewed over 160 leaders from many fields - including business, government and the arts - and from many countries. With quantitative research, the team learned that these leaders have mastered practices to find their balance in the midst of chaos and lead from their most resourceful selves, unleashing the potential of others. In 2009, Johanne Lavoie joined to lead development of programs that help executives build these capabilities. Their research and development work continues as more and more leaders experience Centered Leadership. In the business bestseller, *How Remarkable Women Lead*, Barsh described Centered Leadership's five capabilities and the research that underpins it. Here, with colleague Johanne Lavoie, Barsh provides a practical, actionable field guide for implementation. In *Centered Leadership*, Barsh and Lavoie will guide you through the Centered Leadership program. You'll find the interactive tools, exercises, and practices that have helped the men and women participants in Centered Leadership programs gain the skills, courage and confidence to lead. And, along the way, you'll read inspiring stories of remarkable men and women leaders who demonstrate the power of these skills in action. Those early in their careers will learn how to use these skills to explore their passions and accelerate their professional development. Those forming families will be able to use them to reconcile manage work and life to get the most out of both. And those who have already achieved success will be able use these practices to reach their next leadership horizon. No matter what stage you are currently at in your career, or what level of leadership you aspire to, this book will equip you with the tools to unlock your own Centered Leader and achieve more positive impact at work and outside it.

The Female Advantage Jun 15 2021 Now in Currency paperback -- Sally Helgesen's classic study of female leaders and how their strategies represent a highly successful revision of male leadership styles. Sixty thousand copies in print! In her bestselling 1990 book, Sally Helgesen discovered that men and women approach work in fundamentally different ways. Many of these differences hold distinct advantages for women, who excel at running organizations that foster creativity, cooperation, and intuitive decision-making power, necessities for companies of the twenty-first century. Helgesen's findings reveal that organizations run by women do not take the form of the traditional hierarchical pyramid, but more closely resemble a web, where leaders reach out, not down, to form an interrelating matrix built around a central purpose. The strategy of the web concentrates power at the center by drawing others closer and by creating communities where information sharing is essential. She presents her findings through unique, closely detailed accounts of four successful women business leaders -- Frances Hesselbein of Girl Scouts USA, Barbara Grogan of Western Industrial Contractors, Nancy Badore of Ford Motor Company's Executive Development Center, and Dorothy Brunson of Brunson Communications. Helgesen observes their meetings, listens to their phone calls and conferences, and reads their correspondence. Her "diary studies" document how women leaders make decisions, schedule their days, gather and disperse information, motivate others, delegate tasks, structure their companies, hire, and fire. She chronicles how their experiences as women -- wives, mothers, friends, sisters, daughters -- contribute to their leadership style.

Leadership Strategies for Women Jan 23 2022 How do women leaders make it to the top of an organization? How can women stay at the top when most of their colleagues are men? What should women do to exercise leadership well? This book tells the stories of four powerful women who knew the answers to these three questions. Therefore, this book also explicitly identifies the key factors in these leaders' career success, and it elucidates the competencies that enabled the women to exercise leadership effectively. The four success stories offer women who already serve in leadership roles and those who aspire to become great leaders both inspiration and practical lessons that can be applied to real-world challenges. "A wonderful selection of much-needed role models of powerful women who shaped their time with distinctively authentic styles, all their own. An inspiration for both men and women of what more gender balance in global political and economic roles has to offer the world." Avivah Wittenberg-Cox, CEO 20-first and best-selling author of Why Women Mean Business and How Women Mean Business. "We all know we can learn a lot from history. Leadership Strategies for Women does this in the unexpected context of gender diversity. Nicely written and original, the book is a powerful example of how looking back can help us moving forward." Frank Uit de Weerd, Vice-President HR Innovation, Research & Development, Royal Dutch/Shell "An inspiring narrative that creatively leverages lessons from four women from the past, each of whom had to play the cards she was dealt, and each a force of nature who prevailed against the odds and shaped her world. Today's crop of aspiring women leaders, who often start from scratch and face a bewildering array of options and tough performance expectations, would do well to absorb this book's tightly drawn lessons." Ingo Walter, Seymour Milstein Professor of Finance, Corporate Governance and Ethics, NYU Stern School of Business

Ready to take the next step in your career . . . but not sure what's holding you back? Read on. Leadership expert Sally Helgesen and bestselling leadership coach Marshall Goldsmith have trained thousands of high achievers -- men and women -- to reach even greater heights. Again and again, they see that women face specific and different roadblocks from men as they advance in the workplace. In fact, the very habits that helped women early in their careers can hinder them as they move up. Simply put, what got you here won't get you there . . . and you might not even realize your blind spots until it's too late. Are you great with the details? To rise, you need to do less and delegate more. Are you a team player? To advance, you need to take credit as easily as you share it. Are you a star networker? Leaders know a network is no good unless you know how to use it. Sally and Marshall identify the twelve habits that hold women back as they seek to advance, showing them why what worked for them in the past might actually be sabotaging their future success. Building on Marshall's classic bestseller *What Got You Here Won't Get You There*, *How Women Rise* is essential reading for any woman who is ready to advance to the next level.
