Having the answers they need can attract thousands of potential buyers to your company—but only if your content strategy puts your answers at the top of those search results. It's a simple and powerful equation that produces growth and success: They Ask, You Answer. Using these principles, author Marcus Sheridan led his struggling pool company from the bleak depths of the housing crash of 2008 to become one of the largest pool installers in the United States. Re-Invent Yourself! Sep 09 2020 Cheryl Garrison wrote Re-Invent Yourself after meeting numerous women over 50 who were struggling with the reality of growing older. Career change (including downsizing or layoff), empty nest syndrome, failed retirement, failed business, failed relationships and a lack of confidence in the future are just some of the issues facing women over 50. Cheryl begins the book sharing with the reader her personal journey from a "bold and fearless" 20-year-old to a 50something woman who has been defeated by life-altering changes. Re-Invent Yourself is a working guide that chronicles the steps Cheryl took to re-vitalize her life. Why do we stop dreaming after 50something? Why do we think we are too old to start a business or run a marathon? This book answers these questions and then provides resources to help women live out their dreams and aspirations. The book is filled with personal experiences and is divided into 5 chapters, each designed to move the reader closer to creating a Re-Invention Plan which is the objective of the book. Know Yourself - Helps the reader answer the question, "Who are You?" and "What do you Want?." Cheryl believes that at the core of many of the problems women over 50 have is a lack of true identify or an identity that has been lost in the years of giving to others and spending very little time taking care of ourselves. The exercises in this chapter lead women through an assessment of their self-esteem right now and gives techniques for helping them find their true identity. Women completing this chapter will also be able to take a hard look at what they are currently accomplishing in their personal and professional life and begin the process of identifying what they desire to be and do. Heal Yourself- How do we overcome the beliefs that have kept us from succeeding? Cheryl carries the reader through extensive exercises that will help them identify the thoughts that have kept them standing in "cement blocks" and then break through to a life of accomplishment. Re-Invent Yourself- Readers are given the tools needed to take the wants they have identified as important to them and create a lifestyle plan for re-invention. The plan includes goal creation, identifying timelines, budgeting, and accountability in order to ensure that goals become a reality. The reader will create long-term, short-term and immediate goals that support their overall plan. Commit Yourself - The final part of Cheryl's re-invention plan is for the reader to be committed to change. Without making the commitment and being open to change, nothing will change. This chapter encourages the reader to get a digital calendar and keep track of daily progress. The next important part of change is getting an accountability partner who will make the journey with the reader. Finally, surrounding oneself with positive affirmations is an important part in creating lasting and sustained change. Cheryl's goal for the reader after they have completed the book is to celebrate a new life just as she has done. She went from near depression to now writing books, creating training programs, coaching and speaking to women over 50 about living a life of passion and purpose.

Start with Why Apr 28 2022 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Beekeeping: Questions and Answers Nov 11 2020 From the day I picked up my first two hives, back in 1964, I have been asked questions about honey bees. Some questions were asked by folks who were just curious about bees and other questions were asked by folks who had an interest in getting into beekeeping themselves. Even my scout master couldn't resist asking me questions about beekeeping. When I was taking my beekeeping Merit badge exam, (which unfortunately the Boy Scouts don't offer any longer.) my scout master was so fascinated about all the beekeeping equipment and my presentation that he got into beekeeping himself. There is so much to learn about beekeeping. I could spend another lifetime studying beekeeping and never be able to learn all of it. My bees amaze me every day with something new. That is what keeps beekeeping so interesting to me. I wanted to write this book so that you could learn from all my years of experience and not have to re-invent the wheel. I have assembled a vast number of questions and answers for you. Since all of the questions and answers in this book are in no special order, I have provided you with an index in the back of the book for your convenience. These questions are real questions from folks who have emailed me on the Lone Star Farms website and from folks who contacted me with questions about beekeeping throughout the years. There is rarely just one answer to a beekeeping question (especially among beekeepers) but, I have answered the questions with the answers that have always worked best for me over the years. I do hope that you enjoy reading my book and that you are able to use my book as a reference guide for your beekeeping endeavor for as long as you keep bees. Dennis Brown
