What Do I Say? May 30 2022 The must-have guide to honestly and sensitively answering your clients' questions Written to help therapists view their clients' questions as collaborative elements of clinical work, What Do I Say? explores the questions—some direct, others unspoken—that all therapists, at one time or another, will encounter from clients. Authors and practicing therapists Linda Edelstein and Charles Waehler take a thought-provoking look at how answers to clients' questions shape a therapeutic climate of expression that encourages personal discovery and growth. Strategically arranged in a question-and-answer format for ease of use, this hands-on guide is conversational in tone and filled with personal examples from experienced therapists on twenty-three hot-button topics, including religion, sex, money, and boundaries. What Do I Say? tackles actual client questions, such as: Can you help me? (Chapter 1, The Early Sessions) Sorry I am late. Can we have extra time? (Chapter 9, Boundaries) I don't believe in all this therapy crap. What do you think about that? (Chapter 3, Therapeutic Process) Why is change so hard? (Chapter 4, Expectations About Change) Will you attend my graduation/wedding/musical performance/speech/business grand opening? (Chapter 20, Out of the Office) Where are you going on vacation? (Chapter 10, Personal Questions) I gave your name to a friend . . . Will you see her? (Chapter 9, Boundaries) Should I pray about my problems? (Chapter 12, Religion and Spirituality) Are you like all those other liberals who believe gay people have equal rights? (Chapter 13, Prejudice) The power of therapy lies in the freedom it offers clients to discuss anything and everything. It's not surprising then, that clients will surprise therapists with their experiences and sometimes with the questions they ask. What Do I Say? reveals how these questions—no matter how difficult or uncomfortable—can be used to support the therapeutic process rather than derail the therapist-client relationship.

How Languages Work Aug 28 2019 A new and exciting introduction to linguistics, this textbook presents language in all its amazing complexity, while guiding students gently through the basics. Students emerge with an appreciation of the diversity of the world's languages, as well as a deeper understanding of the structure of human language, the ways it is used, and its broader social and cultural context. Chapters introducing the nuts and bolts of language study (phonology, syntax, meaning) are combined with those on the 'functions' of language (discourse, prosody, pragmatics, and language contact), helping students gain a better grasp of how language works in the real world. A rich set of language 'profiles' help students explore the world's linguistic diversity, identify similarities and differences between languages, and encourages them to apply concepts from earlier chapter material. A range of carefully designed pedagogical features encourage student engagement, adopting a step-by-step approach and using study questions and case studies.
