Well-qualified professionals of Physics, Chemistry, Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to-the-point study material for aspiring candidates. The magazine covers General Knowledge, Science and Technology news, Interviews of toppers of examinations, study material of Physics, Chemistry, Zoology and Botany with model papers, reasoning test questions, facts, quiz contest, general awareness and mental ability test in every monthly issue.

*Koncepts of LR - Logical Reasoning for CAT & Other MBA Exams 3rd Edition* Jul 28 2019 The 3rd edition of the revised & updated book “Koncepts of LR - Logical Reasoning for CAT & Other MBA Exams” is the benchmark in the learning process for Logical Reasoning. The book is the result of an extensive analysis of the past year exams papers. It now incorporates CAT questions from the past 20 years and 8 years of IIFT, & XAT questions. The book introduces Critical Reasoning for the first time. The books major focus is on Problem Solving Caselets and it provides numerous examples, past questions and practice caselets. The entire book has been divided into 21 chapters which provide conceptual inputs along with Solved Examples followed by Exercises in 5 difficulty levels viz. Concept Applicator, Concept Builder, Concept Cracker, Concept Deviator and Data Sufficiency, with detailed solutions. The Author has taken the onus of formulating questions on his own with his expertise in the domain. The result being, more than 1600+ questions incorporated in the book each with detailed solution, a feature not available anywhere otherwise. This book serves the purpose for all the aptitude test takers looking to crack exams like CAT, XAT, SNAP, IIFT & other MBA exams.

**Environment at Crossroads Challenges and Green Solutions** Jun 18 2021 The global environment has significantly changed due to a number of factors such as industrial pollution, expansion of agricultural land way beyond the fringe forest zones, destruction of virgin forests, loss of quality agricultural lands due to soil erosion, loss of global wildlife and biodiversity, climate change, global warming, devastating forest fires, floods, draughts, melting of glaciers to mention a few. Human or anthropogenic impacts are in turn devastating the planet with our attention being shifted only to the shining aspect of our civilizations. The most alarming fact about this hidden factor is that they are all directly or indirectly impacted by human activities in some way or other.

The present work, Environment at Crossroads deals with various environmental problems like climate change, global warming, food security, bioremediation of waste, oil spills, and problems of heavy metal toxicity, control strategies like use of gene therapy, conservation of mangroves, revival of river Vishwamitri and role of plant and animals in biodiversity conservation is discussed.

*Club Expat* Aug 09 2020 Club Expat: A Teenager's Guide to Moving Overseas is a comprehensive guidebook for any young adult or family moving overseas. Written by two former expatriate teenagers, this book is the culmination of experiences of students all around the world and of broad consultations with dozens of experts in the field of international relocation. Covering topics ranging from culture shock to the intricacies of overseas life, this guidebook will serve as the knowledgeable "companion" for young adults embarking on a new journey overseas. Aniket and Akash Shah are

brothers who lived with their family in Europe and Asia for several years as expatriates. They were born in Allentown, Pennsylvania and lived in different parts of the United States before moving abroad. Aniket and Akash are members of the Class of 2009 and the Class of 2006, respectively, at Yale University.

**IIT JEE Physics (1978 to 2018: 41 Years) Topic-wise Complete Solutions** Oct 11 2020 "Bring conceptual clarity and develop the skills to approach any unseen problem, step by step." - HC Verma "Great Book to read and understand! Quality explanations and methodical approach separates this book from the rest. A clear winner in its category." -Review on Amazon "Must have book for every IIT JEE aspirant! There are many solution books available in the market but this book is a class apart. Solutions are explained in detail. In many questions there are extra points which are beneficial for aspirants." - Review on Amazon Written by IITians, foreword by Dr HC Verma and appreciated by students as well as teachers. Two IITian have worked together to provide a high quality Physics problem book to Indian students. It is an indispensable collection of previous 41 years IIT questions and their illustrated solutions for any serious aspirant. The success of this work lies in making the readers capable to solve complex problems using few basic principles. The readers are also asked to attempt variations of the solved problems to help them understand the concepts better. The students can use the book as a readily available mentor for providing hints or complete solutions as per their needs. Key features of the book are: - Concept building by problem solving. The solutions reveals all the critical points. - 1400+ solved problems from IIT JEE. The book contains all questions and their solutions. - Topic-wise content arrangement to enables IIT preparation with school education. - Promotes self learning. Can be used as a readily available mentor for solutions.

School Attendance and Problematic School Absenteeism in Youth Apr 04 2020

**A good night sleep, your solution to sleep disorders** Feb 12 2021 We sleep half of our life. Some feel like losing half others is willing to offer the other half to get a good sleep. Sleep is useful, we all need time to reset our brain, remove the pollution of unwanted memories, worrisome details, clean the neural system from leftovers of the last working day, and most of all to make a fresh start on every new day. In all countries of the world, scientists are busy with the secrets of sleep. They work in their own box. In this book, we get out of the narrow science boxes to learn and understand the reasons for sleep, what to do if we have sleep problems, and if we have how to solve them. Sleep is often connected with rituals. When we get problems with our sleep patterns and reconsider the rituals, we become aware of the importance of sleep. Normally we take our rest for granted but when deprived of our nightly escape to the dream world we become cranky, moody, and lose concentration. Sleep disorder is life-threatening. The danger of loss of focus, the impossibility of concentration, and an increasing lack of awareness become a danger to oneself. Most accidents on the road are due to sleep disorders, road signs are placed to warn drivers to stop every 2 hours to rest at least 15 minutes. Pills, also called barbiturates, hypnotics, or just drugs, seems harmless. We live in a fast time in need of actions and even faster results. The demand and supply chain is strong here. Sleep disorder patients demand the supply of pills. In each medicine box messages to the user are included: do not use this product longer than 4 to 6 weeks. Some read these lines only after many years of use. In this book we mention the danger of (over) medication, we offer natural solutions and tips on "DIY = do it yourself". We have no borders and no limitations, everything that works is shown no matter cultural or moral background. You want to sleep, and we help you do so.

Sleep disorders have become a major problem for every society. When working as a therapist (from 1979 till today) I encountered these disorders with most incoming cases. A short preliminary study in Asia showed the astonishing number of 500 million users of sleep medication drugs. Society is increasing the pressure on all of us. It seems that our lifestyle, costs, and income are all under pressure and we worry more than ever before. The daily pressure of survival makes us lose one of the most important features of relaxation: our sleep. Why do I like to assist a person with a sleep disorder? My reason is simple, I think sleep is a major part of our life and we do need to sleep to function well. With good sleep, we can make the best of our life. After a few good nights, you feel like you can handle the world. Sleeping is important to get old in a healthy way. Your life is between 1/3 in your bed and you want to do this in the most pleasant way.

*Deep Learning and Edge Computing Solutions for High Performance Computing* Aug 21 2021 This book provides an insight into ways of inculcating the need for applying mobile edge data analytics in bioinformatics and medicine. The book is a comprehensive reference that provides an overview of the current state of medical treatments and systems and offers emerging solutions for a more personalized approach to the healthcare field. Topics include deep learning methods for applications in object detection and identification, object tracking, human action recognition, and cross-modal and multimodal data analysis. High performance computing systems for applications in healthcare are also discussed. The contributors also include information on microarray data analysis, sequence analysis, genomics based analytics, disease network analysis, and techniques for big data Analytics and health information technology.

**How to Design TED-Worthy Presentation Slides (Black and White Edition)** Sep 09 2020 Black & White edition  
This is the B&W edition of the book. All pictures inside will be in grayscale. "Reading this book changed my presentation style and my slides, both for the better - and I've been a

professional speaker for over 30 years.”~ Becki L. James *How to Design TED-Worthy Presentation Slides* is a short, practical and step-by-step guide to creating sexy slides. It is based on an extensive analysis of some of the best TED speakers, such as Brene Brown, Daniel Pink, Amy Cuddy, Larry Lessig, Seth Godin, Bill Gates and many, many more. **LEARN HOW TO BREATHE LIFE INTO YOUR SLIDES, INSTEAD OF DRAINING IT OUT OF YOUR AUDIENCE** By the end of this guide, you too will be able to create sexy presentation slides that keep your audiences mesmerized. More importantly, you will be able to design presentations that breathe life into your slides, instead of draining it out of your audience. Here's just a taste of what you'll learn inside the book:

- The most common mistake most presenters make - and how you can avoid it
- The one principle that will make you better than 90% of most speakers
- How to quickly create a presentation storyboard
- Bill Gates' trick for transforming his slides from dull to dashing
- The Seth Godin presentation formula
- The importance of contrast
- Locating and using sexy fonts
- Spicing up your presentations with video
- Displaying data without being dull
- Ensuring consistency between slides
- How to deliver a great TED talk (or any other speech or presentation)
- And much, much more...

“A must read...An essential tool for preparing effective, interesting and "sexy" presentations...a must read for any professional who wants to improve his communicational skills.”~ Rosalinda Scalia “The lessons shared in this short book will go a long way to helping a person give better public presentations. The insights shared by Akash are like golden nuggets in a river full of info!”~ Alan Portugal “I have been teaching workshops at universities and Fortune 500 Campuses up and down the East Coast on building better presentations. Akash hits all the right notes in this book. A must read for anyone wanting to build powerful presentations.”~ David Bishop “Excellent for those who want to really engage their audience. I incorporated many of the principles within and developed a more effective

product presentation.”~ Tom Tipps “Right on the mark. Just what I was looking for as a non-designer.”~ Erik J. Zettelmayer “Make a greater impact with your presentations. While reading this book I was mentally reviewing my talks where I use PowerPoint slides. I am now changing some of those slides to make a greater impact on the listeners. These tips are easy to implement and make sense.”~ John C. Erdman “As always we can expect the best from Akash and we are getting more.”~ Payam Bahrapoor “This book gives practical advice. However, it does not stop there. It demonstrates how to use that advice, gives visual examples of what to do and what not to do and explains why. It turns creating a presentation from a dreaded event to one allowing creativity to flow and your passion about your subject matter to emerge on the screen through your slides.”~ Pandora Training and Consulting “I will admit to rarely reviewing books. However, this book was such a step above any others I’ve read on the art of PowerPoint presentations, I had to give it a five star review.”~ David Schwind

*Science Education in India* Dec 13 2020 This book brings researchers from across the world to share their expertise, experience, research and reflections on science education in India to make the trends and innovations visible. The thematic parts of the book discuss science education: overviews across K-16 levels; inclusivity and access for underrepresented and marginalized sections; use of innovations including technology in the teaching; and implications for research, practice, innovation and creativity. The book should be of special interest to researchers, school administrators, curriculum designers and policymakers. A timely compilation for current and future generations of

academic researchers, teachers and policymakers who are interested in examining the issues facing one of the largest education systems in the world. The book offers unique insights into contemporary topics such as girls in STEM subjects, curriculum reform and developing a generation of future creative thinkers. -Professor Vaile Dawson, The University of Western Australia, Australia. It provides a panorama of challenges in a country of more than 1.3 billion people, 50% being below the age of 25 years. The book arrives at a time in which there are discouraging trends, including a decrease in funding for education. The book chapters are centred on issues that warrant debate to foster awareness of the roles of science education in India and priorities and possibilities for expanding horizons on the road ahead. -Professor Kenneth Tobin, The City University of New York, New York, USA.

**Law Relating to Intellectual Property** Jul 20 2021 The book is a comprehensive work on the law relating to intellectual property. It brings out point of views on point of law and as well point of facts and circumstances. It highlights judiciously the judicial, political, legal, economical and philosophical point of views on the various issues pertinent to the varied fields of intellectual property law. Besides, the book carries analysis and presentation from the comparative perspective in particular from the perspectives of USA, Europe, UK and India. Detailed explanatory answers have also

been provided for each question for the better understanding of the concepts. The main purpose of this book is to assure success of the candidates of this exam. TABLE OF CONTENTS Model Solved Papers (Official), English, Physics, Mathematics, Reasoning & General Awareness.

History of Maintenance of Indian Air Force 1977-2016 Dec 25 2021 IAF from its humble beginning in 1932 has transformed itself into fourth largest AF operating at frontiers of technologies with multi-dimensional capabilities and a potent force to reckon with. It is said that the history is written by winners. But what is important is that the history is documented impartially, objectively and factually, as much as possible. It may be worth for IAF to consider coming out with a book each on Operations, Maintenance and Administration, depicting the historical decisions taken - successes and failures in equal measure - and how the IAF progressed over the decades to be what it is today - a professionally managed, optimally exploited, synergistically working and one of the most effective instruments of national power to ensure accomplishing objectives of the nation. Yes, coffee table books and anniversary issues do gloss over a few events, but the real history is made by the toil, blood and sweat and tears of the men behind these operations. Individual awards and citations many times compromise on actualities and are miserly with truth. "History is an argument without an end" said Pieter Geyl the Dutch historian. "I am glad to recommend this book to all, as the readers of the book, irrespective of their background, will enjoy the journey of these 'spanners and screwdrivers' of 12 AEC covering almost 900 man-years of IAF maintenance. It is also bound to raise curiosity in many minds to know more about air force maintenance. The book may act as a lighthouse for a lot of the present serving aeronautical engineers in their progression." - Air Marshal KS Bhatia, PVSM AVSM & BAR "40 years of IAF maintenance history told through the voices of 39 outstanding air force officers with an unsurpassed breadth of experience and accomplishments. Most inspiring." -

Ramesh Dontha, Author of The 60-Minute Startup series of books, 3 times bestselling author, Gold Medal Award winner in 2020 Reader's Favorite International Competition (Marketing)

*Crutchman* Feb 01 2020 For some, he was a four-legged animal while for others; he was a dog without a tail. For most people, he was a man who walked with the help of crutches. But for himself, he was a "Crutchman" whose extraordinary power was his "will power". Welcome to the world of Akash - who, in spite of his disability, strives hard with the help of his two friends, Darsh and Nakul to create his own destiny. Darsh had fallen for a girl whom he had met on a blind date while Nakul's eyes were set on a married woman. Although each one of them had their own issues to deal with, their viewpoint towards one thing was common: and that was finding a JOB - which they believed stood for 'Joker of Boss'. Will their crazy business ideas help them conquer the world? Or will they succumb to the pressure of betrayal, corruption and hardship that comes their way while chasing their dreams?

*Communicating Across Cultures Student's Book with Audio CD* Apr 16 2021 Communicating Across Cultures is an innovative short course for learners of business English who want to function effectively in an international environment by developing their intercultural skills in English.

Drawing on inspirational advice from leading figures in the world of cross-cultural communication, Communicating Across Cultures covers all types of oral and written communication, from meetings to negotiations, telephone calls to emails, and deals with situations ranging from working in international teams to managing conflict. Students are invited to analyse their own intercultural competence and helped to develop a personal action plan for further use beyond the classroom. The Student's Book comes with an audio CD that contains authentic interviews with people from the

world of business and extracts from meetings that exemplify the communication strategies presented.

Steps into Analytic Number Theory May 06 2020 This problem book gathers together 15 problem sets on analytic number theory that can be profitably approached by anyone from advanced high school students to those pursuing graduate studies. It emerged from a 5-week course taught by the first author as part of the 2019 Ross/Asia Mathematics Program held from July 7 to August 9 in Zhenjiang, China. While it is recommended that the reader has a solid background in mathematical problem solving (as from training for mathematical contests), no possession of advanced subject-matter knowledge is assumed. Most of the solutions require nothing more than elementary number theory and a good grasp of calculus. Problems touch at key topics like the value-distribution of arithmetic functions, the distribution of prime numbers, the distribution of squares and nonsquares modulo a prime number, Dirichlet's theorem on primes in arithmetic progressions, and more. This book is suitable for any student with a special interest in developing problem-solving skills in analytic number theory. It will be an invaluable aid to lecturers and students as a supplementary text for introductory Analytic Number Theory courses at both the undergraduate and graduate level.

**Teaching Dilemmas and Solutions in Content-Area Literacy, Grades 6-12** Nov 04 2022 Middle and high school students must become proficient readers and writers to successfully meet the requirements of the secondary curricula and be adequately prepared for college, employment, and citizenship. Literacy Across the Curriculum is a guide for educators who are concerned with how students experience literacy instruction across the secondary school curriculum and need strategies for raising student performance levels. Each chapter of this edited volume is co-authored by a professor and classroom teacher within a particular academic discipline, and provides a set of 4 or 5

provocative scenarios to illuminate the decisions teachers need to make in order to successfully incorporate literacy instruction within that content area.

AKASHVANI Feb 24 2022 "Akashvani" (English) is a programme journal of ALL INDIA RADIO, it was formerly known as The Indian Listener. It used to serve the listener as a bradshaw of broadcasting ,and give listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation. The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 December, 1935 and was the successor to the Indian Radio Times in English, which was published beginning in July 16 of 1927. From 22 August ,1937 onwards, it used to published by All India Radio, New Delhi. From 1950,it was turned into a weekly journal. Later, The Indian listener became "Akashvani" (English ) w.e.f. January 5, 1958. It was made fortnightly journal again w.e.f July 1,1983. NAME OF THE JOURNAL: AKASHVANI LANGUAGE OF THE JOURNAL: English DATE, MONTH & YEAR OF PUBLICATION: 10 FEBRUARY, 1963 PERIODICITY OF THE JOURNAL: Weekly NUMBER OF PAGES: 64 VOLUME NUMBER: Vol. XXVIII. No. 6 BROADCAST PROGRAMME SCHEDULE PUBLISHED (PAGE NOS): 6, 9-55, 61 ARTICLE: 1. CHINESE AGGRESSION 2. 'A Boon in Disguise' 3. Peace At Home Essential 4. WILL AND DETERMINATION 5. Diabolical Challenge 6. CIVIL DEFENCE 7. Chinas' Intentions Exposed 8. JOIN THE N.C.C AUTHOR: 1. Renuka Ray, M. P. 2. R. K. Khadilkar, M.P. 3. Naval Tata 4. K. Gurusurthi 5. T. Chengalvaioyan 6. Sardar And Singh 7. Prem Bhatia 8. R.K. Yadava KEYWORDS : 1.Insurmountable barrier,long order 2.Examine or failings, put in your best 3.Internal peace essential, to the youth,greatest obstacle 4.Peaceful means, contribute generously 5.Cold-blooded

attack, world-wide support, tradition of valour 6.No surrender, disciplined Nation, don't fear air raids, very difficult to cripple 7.Colombo powers' 8.Better opportunity, attendance on parade Document ID : APE-1963 (J-F) Vol-I-06 Prasar Bharati Archives has the copyright in all matters published in this "AKASHVANI" and other AIR journals. For reproduction previous permission is essential.

**India Becoming** Jun 26 2019 A New Republic Editors' and Writers' Pick 2012 A New Yorker Contributors' Pick 2012 A Newsweek "Must Read on Modern India" "For people who savored Katherine Boo's *Behind the Beautiful Forevers*."—Evan Osnos, *newyorker.com* From the author of *Better To Have Gone*, a portrait of the incredible change and economic development of modern India, and of social and national transformation there told through individual lives Raised in India, and educated in the U.S., Akash Kapur returned to India in 2003 to raise a family. What he found was an ancient country in transition. In search of the life that he and his wife want to lead, he meets an array of Indians who teach him much about the realities of this changed country: an old landowner sees his rural village destroyed by real estate developments, and crime and corruption breaking down the feudal authority; a 21-year-old single woman and a 35-year-old divorcee exploring the new cultural allowances for women; and a young gay man coming to terms with his sexual identity - something never allowed him a generation ago. As Akash and his wife struggle to find the right balance between growth and modernity and the simplicity and purity they had known from the Indian countryside a decade ago, they ultimately find a country that "has begun to dream." But also one that may be moving away too quickly from the valuable ways in which it is different.

*Apache Spark Quick Start Guide* Jun 06 2020 A practical guide for solving complex data processing challenges by applying the best optimizations techniques in Apache Spark. Key Features Learn about the core concepts and the latest developments in Apache Spark Master writing efficient big

data applications with Spark's built-in modules for SQL, Streaming, Machine Learning and Graph analysis Get introduced to a variety of optimizations based on the actual experience Book Description Apache Spark is a flexible framework that allows processing of batch and real-time data. Its unified engine has made it quite popular for big data use cases. This book will help you to get started with Apache Spark 2.0 and write big data applications for a variety of use cases. It will also introduce you to Apache Spark - one of the most popular Big Data processing frameworks. Although this book is intended to help you get started with Apache Spark, but it also focuses on explaining the core concepts. This practical guide provides a quick start to the Spark 2.0 architecture and its components. It teaches you how to set up Spark on your local machine. As we move ahead, you will be introduced to resilient distributed datasets (RDDs) and DataFrame APIs, and their corresponding transformations and actions. Then, we move on to the life cycle of a Spark application and learn about the techniques used to debug slow-running applications. You will also go through Spark's built-in modules for SQL, streaming, machine learning, and graph analysis. Finally, the book will lay out the best practices and optimization techniques that are key for writing efficient Spark applications. By the end of this book, you will have a sound fundamental understanding of the Apache Spark framework and you will be able to write and optimize Spark applications. What you will learn Learn core concepts such as RDDs, DataFrames, transformations, and more Set up a Spark development environment Choose the right APIs for your applications Understand Spark's architecture and the execution flow of a Spark application Explore built-in modules for SQL, streaming, ML, and graph analysis Optimize your Spark job for better performance Who this book is for If you are a big data enthusiast and love processing huge amount of data, this book is for you. If you are data engineer and looking for the best optimization techniques for your Spark applications,

then you will find this book helpful. This book also helps data scientists who want to implement their machine learning algorithms in Spark. You need to have a basic understanding of any one of the programming languages such as Scala, Python or Java.

**Problems & Solutions in Advanced Accountancy Volume II, 7th Edition** Aug 01 2022 Any Book On Solved Problems Would Be Welcome By The Students As They Dread The Unsolved Problems The Most. Problems And Solutions In Advanced Accountancy-Vol. I And II Is The Result Of Realization Of The Same Fact. However, This Book Will Serve Its Purpose The Best If Before Referring To It The Students Have Attempted To Solve The Questions On Their Own.

**Problems and Solutions in Accountancy Class XII [2022-23]** Sep 02 2022 Part : A - Accounting for Not-for-Profit Organisations and Partnership Firms 1. Accounting for Not-for-Profit Organisations, 2. Accounting for Partnership Firms—Fundamentals, 3. Goodwill : Meaning, Nature, Factors Affecting and Methods of Valuation, 4. Reconstitution of Partnership—change in Profit-Sharing Ratio among the Existing Partners, 5. Admission of a Partner, 6. Retirement of a Partner, 7. Death of a Partner, 8. Dissolution of Partnership Firm. Part : B - Company Accounts and Analysis of Financial Accounting 1. Accounting for Share Capital : Share and Share Capital, 2. Accounting for Share Capital : Issue of Shares, 3. Forfeiture and Re-Issue of Share, 4. Issue of Debentures, 5. Redemption of Debentures, 6. Financial Statements of a Company : Balance Sheet and Statement of Profit and Loss, 7. Tools for Financial Statement Analysis : Comparative Statements, 8. Common-Size Statements, 9. Accounting Ratios, 10. Cash Flow Statement.
