Blackjacks May 05 2020 This book is based on our lives. It starts very briefly in the United Kingdom and quickly moves to the Eastern Highland of Rhodesia. It moves through our childhood while we're living in the eastern border areas, Umtali, Sabi Tanganda, and Chipinga. As we pass through our teenage years and become adults, it travels with us to Western Australia and then back to Chipinga. We share the lives of others as the Rhodesian Bush War escalates in what was a quiet and idyllic country town to one of the most dangerous and deadly districts in Rhodesia. Then the books deals with our final move back to Western Australia and our struggle to once again build a life for our children and ourselves. To most people, this may seem to be an unusual life, but to a Rhodesian, it would be considered pretty much the same story as many other families. Although it is our story, there are many stories told by others who have shared our way of life. It is about love, hate, and humor. It is about determination and desperation. It is about life and death and friendship and community spirit. Most of all, I hope it is a monument to those who died or were seriously injured, physically or mentally, black or white. It is also a salute to those incredible farmers, the Rhodesian armed forces, and those who worked in the rural areas during those troubled times. For me personally, writing this book has been a huge emotional journey.

Quantitative Analysis, Derivatives Modeling, and Trading Strategies

Jul 27 2019 This book addresses selected practical applications and recent developments in the areas of quantitative financial modeling in derivatives instruments, some of which are from the authors' own research and practice. While the primary scope of this book is the fixed-income market (with further focus on the interest rate market), many of the methodologies presented also apply to other financial markets, such as the credit, equity, and foreign exchange markets. This book, which assumes that the reader is familiar with the basics of stochastic calculus and derivatives modeling, is written from the point of view of financial engineers or practitioners, and, as such, it puts more emphasis on the practical applications of financial mathematics in the real market than the mathematics itself with precise (and tedious) technical conditions. It attempts to combine economic insights with mathematics and modeling so as to help the reader develop intuitions. In addition, the book addresses the counterparty credit risk modeling, pricing, and arbitrage strategies, which are relatively recent developments and are of increasing importance. It also discusses various trading structuring strategies and touches upon some popular credit/IR/FX hybrid products, such as PRDC, TARN, Snowballs, Snowbears, CCDS, credit extinguishers."

Come Into My Trading Room Jun 25 2019 The trading bible for the new millennium In Come Into My Trading Room, noted trader and author Dr. Alexander Elder returns to expand far beyond the three M's (Mind, Method, and Money) of his bestselling Trading for a Living. Shifting focus from technical analysis to the overall management of a trader's money, time, and strategy, Dr. Elder takes readers from the fundamentals to the secrets of being a successful trader—identifying new, little known indicators that can lead to huge profits. Come Into My Trading Room educates the novice and fortifies the professional through expert advice and proven trading methodologies. This comprehensive trading guide provides a complete introduction to the essentials of successful trading: a fresh look at the three M's, including a proven, step-by-step money management strategy; and an in-depth look at organizing your trading time. Come Into My Trading Room reviews the basics of trading stocks, futures, and options as well as crucial psychological tactics for discipline and organization—with the goal of turning anyone into a complete and successful trader. By showing traders how to combine the elements of mind, method, and money, Come Into My Trading Room gives readers the knowledge and insight to enter the market with confidence and exit with profits. Unparalleled depth and a wide range of coverage will keep all levels of traders engaged, informed, and returning to Come Into My Trading Room again and again. Dr. Alexander Elder (New York, NY) is a professional trader, technical analysis expert, and practicing psychiatrist. He is the founder of Financial Trading Inc., providing intensive trading camps to traders all over the world. Elder's first book Trading for a Living (Wiley: 0471592242) and the companion study guide have sold over 160,000 copies.
