**The Songs of Fanny Hensel** Jun 26 2019 Fanny Hensel created some of the most imaginative and original music of her era, making her arguably the most gifted female composer of the nineteenth century. While Hensel has finally stepped out of the shadow of her famous brother, Felix Mendelssohn, as scholars have begun to study her life and writings, her music has remained surprisingly underexamined. This collection places Hensel's music at the center, focusing on the genre that not only made up more than half of her creative output but also, as Hensel herself put it, "suits her best": song. In eleven new essays, leading scholars in the fields of music theory and musicology consider Hensel's songs from a wide range of angles, covering topics such as Hensel's fascination with particular poets and poetic themes; her innovative harmonic, melodic, rhythmic, and textual strategies; and her connection to larger literary and musical trends. The chapters also provide insight into Hensel's efforts to break free from the constraints placed on her as a woman and her place in the larger history of the nineteenth-century Lied. Drawing on diverse biographical, historical, cultural, and musical contexts for their detailed discussions of Hensel's songs, the authors underline Hensel's historical importance and deepen our understanding and appreciation of her compositions. This volume, in short, finally gives Fanny Hensel and her songs the stage that they deserve.

**Among the Original Dwellers: Remembering Ferdinand Hahn** Jul 28 2019 Uncovering the story of a forgotten great-great-grandfather took me on a journey of discovery and exploration into how identity is shaped in a strange mix of cultures. Ferdinand Hahn was a German missionary living in British India, among the original dwellers (Adivasi), prior to World War I. He played a significant role in helping the Adivasi retain their culture and fight for their liberation. In telling his story the history of the Adivasi in India will be heard.

**Animals, Machines, and AI** Mar 04 2020 Sentient animals, machines, and robots abound in German literature and culture, but there has been surprisingly limited scholarship on non-human life forms in German studies. This volume extends interdisciplinary research in emotion studies to examine non-humans and the affective relationships between humans and non-humans in modern German cultural history. In recent years, fascination with emotions, developments in robotics, and the burgeoning of animal studies in and beyond the academy have given rise to questions about the nature of humanity. Using sources from the life sciences, literature, visual art, poetry, philosophy, and photography, this collection interrogates not animal or machine emotions per se, but rather uses animals and machines as lenses through which to investigate human emotions and the affective entanglements between humans and non-humans. The COVID-19 pandemic made us more keenly aware of the importance of both animals and new technologies in our daily lives, and this volume ultimately sheds light on the centrality of non-humans in the human emotional world and the possibilities that relationships with non-humans offer for enriching that world.

**Sacred Music as Public Image for Holy Roman Emperor Ferdinand III** Mar 28 2022 Ferdinand III played a crucial role both in helping to end the Thirty Years' War and in re-establishing Habsburg sovereignty within his hereditary lands, and yet he remains one of the most neglected of all Habsburg emperors. The underlying premise of *Sacred Music as Public Image for Holy Roman Emperor Ferdinand III* is that Ferdinand's accomplishments came not through diplomacy or strong leadership but primarily through a skillful manipulation of the arts, through which he communicated important messages to his subjects and secured their allegiance to the Catholic Church. An important locus for cultural activity at court, especially as related to the Habsburgs' political power, was the Emperor's public image. Ferdinand III offers a fascinating case study in monarchical representation, for the war necessitated that he revise the image he had cultivated at the beginning of his reign, that of a powerful, victorious warrior. Weaver argues that by focusing on the patronage of sacred music (rather than the more traditional visual and theatrical means of representation), Ferdinand III was able to uphold his reputation as a pious Catholic reformer and subtly revise his triumphant martial image without sacrificing his power, while also achieving his Counter-Reformation goal of unifying his hereditary lands under the Catholic church. Drawing upon recent methodological approaches to the representation of other early modern monarchs, as well as upon the theory of confessionalization, this book places the sacred vocal music composed by imperial musicians into the rich cultural, political, and religious contexts of mid-seventeenth-century Central Europe. The book incorporates dramatic productions such as opera, oratorio, and Jesuit drama (as well as works in other media), but the primary focus is the more numerous and more frequently performed Latin-texted paraliturgical genre of the motet, which has generally not been considered by scholars as a vehicle for monarchical representation. By examining the representation of this little-studied emperor during a crucial time in European history, this book opens a window into the unique world view of the Habsburgs, allowing for a previously untold narrative of the end of the Thirty Years' War as seen through the eyes of this important ruling family.

**The Diaries of Giacomo Meyerbeer: 1840-1849** May 06 2020 Volume 2 covers the 1840s, a period designated as the Prussian Years. From 1846 Meyerbeer's journal becomes a consistent daily record, resulting in one of the most sustained depictions of a contemporary artistic, theatrical, and musical milieu ever kept by a famous composer. Illustrated.

**When Machines Play Chopin** Nov 23 2021 *When Machines Play Chopin* brings together music aesthetics, performance practices, and the history of automated musical instruments in nineteenth-century German literature. Philosophers defined music as a direct expression of human emotion while soloists competed with one another to display machine-like technical perfection at their instruments. *When Machines Play Chopin* looks at this paradox between thinking about and practicing music to show what three literary works say about automation and the sublime in art.

**Imagination in German Romanticism** Oct 23 2021 In German Romanticism, the imagination is the site of the encounter between the subject and its environment; this book examines that encounter. Dealing with both literary and philosophical texts, it argues that the Romantic imagination performs a critique of rationalism. In reflecting on the fragmentary, the Romantics require the reader to both imagine and to question this as a hermeneutic process. As such, they understand writing to be an experiment in memory, both individual and cultural. This book is a study of the writings of E.T.A. Hoffmann, Novalis, Tieck and also of the utopian project of Romanticism itself. Methodologically, it is informed by what Foucault termed the archaeological approach to discourse as well as by psychoanalysis and literary theory. Examining points of contact as well of divergence between Kantian epistemology and Romantic nature philosophy, it also highlights the correspondences between literature, philosophy and science. Above all, it treats Romanticism as an experiment in the portrayal of ambivalent modern identity.

Alongside the original German texts are translations by leading Lieder expert Richard Stokes, who also provides illuminating commentary. The 36 poets set by Wolf are each given their own chapter: a brief essay on the poet is followed by a note on Wolf's connection with the writer, extracts from letters that throw light on the Songs and convey his mood at the time of composition, and the texts and translations. Short biographies of all Wolf's correspondents flesh out the extraordinary life of this genius. This will be an indispensable volume for all lovers of Lieder.

The Singer-Songwriter in Europe Sep 21 2021 The Singer-Songwriter in Europe is the first book to explore and compare the multifaceted discourses and practices of this figure within and across linguistic spaces in Europe and in dialogue with spaces beyond continental borders. The concept of the singer-songwriter is significant and much-debated for a variety of reasons. Many such musicians possess large and zealous followings, their output often esteemed politically and usually held up as the nearest popular music gets to high art, such facets often yielding sizeable economic benefits. Yet this figure, per se, has been the object of scant critical discussion, with individual practitioners celebrated for their isolated achievements instead. In response to this lack of critical knowledge, this volume identifies and interrogates the musical, linguistic, social and ideological elements that configure the singer-songwriter and its various equivalents in Europe, such as the French auteur-compositeur-interprète and the Italian cantautore, since the late 1940s. Particular attention is paid to the emergence of this figure in the post-war period, how and why its contours have changed over time and space subsequently, cross-cultural influences, and the transformative agency of this figure as regards party and identity politics in lyrics and music, often by means of individual case studies. The book's polycentric approach endeavours to redress the hitherto Anglophone bias in scholarship on the singer-songwriter in the English-speaking world, drawing on the knowledge of scholars from across Europe and from a variety of academic disciplines, including modern language studies, musicology, sociology, literary studies and history.

The History of the Reign of Ferdinand and Isabella the Catholic (Vol. 1-3) Feb 01 2020 "The History of the Reign of Ferdinand and Isabella the Catholic" in 3 volumes is one of the best-known works by the American historian William Hickling Prescott. Isabella I (1451-1504) was Queen of Castile from 1474 and Queen consort of Aragon from 1479, reigning over a dynastically unified Spain jointly with her husband Ferdinand II (1452-1516). After a struggle to claim her right to the throne, she reorganized the governmental system, brought the crime rate to the lowest it had been in years, and unburdened the kingdom of the enormous debt her brother had left behind. Isabella's marriage to Ferdinand in 1469 created the basis of the de facto unification of Spain. Isabella and Ferdinand are known for completing the Reconquista, ordering conversion or exile to their Jewish and Muslim subjects, and for supporting and financing Christopher Columbus's 1492 voyage that led to the opening of the New World and to the establishment of Spain as a major power in Europe and much of the world for more than a century.

*The Wonder Singer* Jun 18 2021 The Wonder Singer is an operatic literary caper about one young writer's manic ambition. His solution is to steal the tapes, liberate the Diva's aging husband, and write the autobiography on the run.

*Singing the Resurrection* Jan 26 2022 Singing the Resurrection brings music to the foreground of Reformation studies, as author Erin Lambert explores song as a primary mode for the expression of belief among ordinary Europeans in the sixteenth century, for the embodiment of individual piety, and the creation of new communities of belief. Together, resurrection and song reveal how sixteenth-century Christians--from learned theologians to ordinary artisans, and Anabaptist martyrs to Reformed Christians facing exile--defined belief not merely as an assertion or affirmation but as a continuous, living practice. Thus these voices, raised in song, tell a story of the Reformation that reaches far beyond the transformation from one community of faith to many. With case studies drawn from each of the major confessions of the Reformation--Lutheran, Anabaptist, Reformed, and Catholic--Singing the Resurrection reveals sixteenth-century belief in its full complexity.

The writing is as much about where he eats and the people he eats with as the unusual flavours he tastes on the road. Whether it's munching donuts with cops in Brooklyn, swallowing bull's balls with the band in Buenos Aires or queuing for a saveloy in South Shields, these are surprising and vivid snapshots of life on the road. Funny, poignant, sickening or sexual depending on the situation, the material, both new and previously published in the Guardian, is fascinating and entertaining.

**Louis-Ferdinand Céline** Jan 14 2021 The first English-language biography in more than two decades of the French writer, one of the great novelists of the twentieth century. Louis-Ferdinand Céline was one of the most innovative novelists of the twentieth century, and his influence both in his native France and beyond remains huge. This book sheds light on Céline's groundbreaking novels, which drew extensively on his complex life: he rose from humble beginnings to worldwide literary fame, then dramatically fell from grace only to return, belatedly, to the limelight. Céline's subversive writing remains fresh and urgent today, despite his controversial political views and inflammatory pamphlets that threatened to ruin his reputation. The first English-language biography of Céline in more than two decades, this book explores new material and reminds us why the author belongs in the pantheon of modern greats.
